Governor Johnson May Live

Reccheater, Minn., Sept. 16—Summoned back to life from the brink of the grave and by the prompt and efficient action of St. Mary's Hospital doctors during the early hours of the morning, Governor Johnson, who was operated on yesterday, spent a fairly easy night for one so ill.

Tonight, it is believed, will determine whether he will recover, as all the doctors expect the crucial time to come before the dawn of another day. Should he pass this crisis there will be definite basis for hope that he will recover, although he will not be actually out of danger for several days.

During the late hours of last night and early hours of this morning, the Governor's condition was such that frequent saline injections were administered to stimulate the almost imperceptible pulse.

With the break of day the Governor began to mend a bit, and the first of the bulletins issued by Dr. William J. Mayo said that the patient had rallied from a sinking spell and that his condition was satisfactory. Other bulletins issued during the day tend to confirm this, except one at noon, which stated that the Governor was suffering pain from accumulation of gas and that his condition was not so favorable.

Marshall Hill School Gets Another Teacher

The school board met in special session last night to consider the request of the patrons of Marshall Hill school for another teacher. It was found that the two teachers there had more pupils than could be given the proper attention and their request was granted. Miss Edna Standridge, who was elected as supply will take the position.

"The Missouri Girl."

Of all the attractions which have visited us in the past decade, none is more popular with the theatre-going public than that quaint and always welcome comedy, "The Missouri Girl." Its author and manager, Mr. Fred Raymond, feels justly proud of its unbounded success as a work of a dramatic art, years of popular favor, and a wonderful drawing powers. It is a faithful picture of American country life, with a healthful and invigorating atmosphere. In the construction of this truly successful play Mr. Raymond has given to the American stage two character delineations "Zeeke" and "Daisy" which stand alone as laugh producers, and one wonders at the unadulterated simplicity which characterizes those two excruciatingly funny creations, but the play has also its serious side of life, which brings into action an exceptionally strong company of artists. "The Missouri Girl" is remarkable for the attention which is given to the details in the elaborate settings and accessories giving the play a most realistic effect. During the action of the play novel musical numbers, songs and dances are introduced. The oftener the public see "The Missouri Girl" the oftener they want to see it. It is undoubtedly the greatest self-advertising play on the American stage today. It pleases all classes; hence its unprecedented success. "The Missouri Girl" will be at the opera house September 24. Tickets on sale at McKee's.

Lost Land

A small tract of ground has been found on Marshall Hill without an owner. No record can be found establishing an ownership nor has there been taxes paid on the same. If it can be done the council should condemn it to the use of the city and make as small park of the same. It is 50x140 feet in size and is situated on the corner of Walnut and Summit streets. It is side hill ground but could be made into a nice little park or play ground.

The examination of applicants for the position of clerk-carrier for the Monett free delivery will be held in the high school building Saturday. Applicants are expected to furnish ink and pens.
